Profile

Full-stack web developer profile focused on thoughtful interfaces and dependable systems. Starter copy, not a verified biography.

Technical toolkit — starter levels

- **Interface:** React, TypeScript, HTML & CSS, accessibility — Confident
- **Server:** Node.js, REST APIs, SQL — Comfortable
- **Delivery:** Git, testing, CI / CD, documentation — Growing

Concept demos — replace with verified work

- **Morrow:** weekly-planning interface.
- **Commonplace:** shared scratchpad interface.
- **Trace:** request-timeline interface.

Open-source practice

Illustrative focus areas: clear documentation, small reusable tools, and thoughtful follow-through. Confirm repositories and contribution history before claiming them as personal work.
